Not to be behind the times, the Vermont courts have fined the New York & Bermudez Asphalt company \$5,000,000 for an alleged participation in the Matos rebellion.

President Roosevelt, the pilgrim who landed from the Mayflower at Provincetown today, found a more hospitable reception than did those earlier Pilgrims.

New Hampshire is enjoying her Old Home Week festivities this week. The idea originated and has proven a great success in that state, and while some effort has been made to celebrate the festival in Vermont, only one community, Chelsea, has made a continued and thoroughly enjoyable success of it. Chelsea seems to know how to do it, and then again she is such a hospitable and inviting village to return to, she couldn't help but make a success of it.

MR. TAFT AND MR. HUGHES.

The Chicago Tribune has completed a postcard poll of 1,700 editors, congressmen and chairmen of state and county committees in eleven states of the central west, as to whom they prefer for President Roosevelt's successor. The vote stood as follows: Taft 544, Cannon 191, Hughes 184, Fairbanks 159, Roosevelt 138, Cullom 30, Knox 19. The lead of Mr. Taft is what might have been expected, in view of Mr. Roosevelt's repeated declarations that he was not a candidate, but the most surprising part of the canvass is the strength shown by Governor Hughes in a territory naturally strong for Taft, Cannon, or Fairbanks. All three are men of national reputation and prominence, while Hughes has only half a year as governor of New York to bring him before the people. 1,435 of the 1,700 men addressed answered and favored the policy of the president and favored the nomination of a candidate who will follow along the same lines of policy. The cheering part of it all is the fact that the Republican party has two such strong men it proposes to put forward against each other next year.

SACRIFICE VESSEL IN THE INTERESTS OF SCIENCE.

British Admiralty to Learn Effect of Explosions on Submarines.

London, Aug. 20.—The British admiralty is about to sacrifice one of the earlier type of Holland submarine boats with the object of acquiring knowledge of the effect of mine explosions upon a boat of that class.

Mines and torpedoes will be exploded at different distances from the vessel, as a result of which it is hoped to discover the effect of explosions on the boat's equilibrium and furnish torpedo specialists with hints regarding the best means of fighting submerged craft.

Stocks Rally Slightly.

New York, Aug. 20.—Stocks rallied an average of two points at the opening yesterday because of the expected return of J. P. Morgan and the growing belief that the speeches of President Roosevelt and Secretary Taft lack all elements of incendiaryism.

Union Pacific, Great Northern, Northern Pacific and St. Paul lead in the advance.

Railroad managers generally announced that their business was in good condition. It was announced also that they do not fear much the action by state officials.

Wheat was from 1/2 to 3/4 of a cent higher. Cotton was also slightly higher.

JINGLES AND JESTS

Yesterday and Today.

The statesman of the years gone by
Displayed a solemn mien;
He wore a hat severely high
And held a pose serene.
He banqueted in formal state;
His guests could never complain,
For terrapin was what they ate,
And what they drank champagne.

The statesman of the present day
Must seek athletic joys,
And join the festive crowds that say
"Rah! Rah!" like college boys.
And witty sayings from his pen
Must make the world by storm,
And he must gallop now and then
In cowboy uniform.

In The Same Business.

Mrs. Wall Street—I'm so glad to see you going in for wheat, Mr. Hatiek. My husband has made a great deal of money out of that in the city.—Life.

"When in Rome"

Mary had a little waist,
'Twas full of holes, for true,
And everywhere that Mary went
The boys would peek-a-boo.
It followed her to a resort,
Hard by the sounding sea;
'Tis strange," quoth Mary, "that the boys
No longer notice me."

But little Mary'd been to school
And was somewhat astute,
She thought the matter over
And she bought a bathing suit.

And when she bought her bathing suit
And wore it everywhere,
Her troubles quickly ended
For the boys took note, for fair.

Mamma—Dear me! I wonder where baby got such a temper.
Papa—Never mind. We haven't time to fight out the question just now.—Brooklyn Life.

From The Ladies' Saloon.

Jacob Hope, the head of Philadelphia's famous phonograph school for parrots, said the other day:

"There are worse things than a swearing parrot, and one was brought over on a German boat last month. His owner, a sailor, swore that this travelled bird knew no profanity, and a lady bought him."

"But she had to bring him to me. The parrot, though he didn't swear, had evidently spent most of his time on shipboard in the ladies' saloon, for what he would do was this:

"For hours at a time he would choke and gasp and blubber as if he'd never stop, and then he'd sing out feebly, 'Steward—bucket.'—Washington Star.

UNVEILS TABLET TO WRECK VICTIMS.

Ambassador Reid Refers to Plymouth-London Disaster and Tries That Bind.

Salisbury, Eng., Aug. 20.—Ambassador Reid unveiled the tablet erected as a pledge of brotherly sympathy to the mourners in England, the United States and Canada, and in memory of the 28 people, mostly Americans, who lost their lives by the disaster of the Plymouth-London boat train in July, 1906. Mr. Reid said:

"The manifestations of sorrow which ranged through all classes and conditions of men, have found their fitting climax in the erection in this cathedral of this permanent memorial, which will testify so long to these walls endure to that community of feeling which, in the moments of our greatest sorrow as in the moments of our greatest joy, binds the American and British people together as one great family."

At the close of the service Chopin's funeral march was played. The ceremony, the impressiveness of which was emphasized by the presence of the widows of and children of the trainmen killed in the disaster, all in deep mourning, was attended by many dignitaries of the church. The bishop of Salisbury, Dr. Wordsworth, dedicated the tablet.

PRINCE WILHELM ARRIVES ON A SWEDISH CRUISER

Received With International Salutes in Hampton Roads.

Norfolk, Va., Aug. 20.—The Swedish cruiser *Egyla*, with Prince Wilhelm on board, passed Cape Henry at noon yesterday. The *Egyla*, which was not met at the Cape by any American warship, proceeded directly to the Jamestown Exposition grounds on Hampton Roads.

The arrival of the prince was announced by the exchange of international salutes between the *Egyla*, the guns at Fort Monroe, and the vessels of Rear Admiral Evans, commanding the squadron of warships at the exposition to welcome the Swedish royal prince.

Mr. Marr's Latest Song.

J. P. Marr's latest song is entitled Vermont, and is considered to be one of his best efforts. It is:

VERMONT.

By fair Winoski's winding stream,
Or where Champlain's clear waters gleam,
Or Bennington's heroic scene
I love to stray,
And wander o'er thy hills of green
The summer days;

Or roam thy wildwood hills along
Where robins sing their mating song
And ferns and flowerets clustering through
The mossy fern,
And fragrant perfumes, sweet and strong,
Fill every dell;

While nature scents the palmy air,
Thy leafy valleys rich and rare,
Thy glistening streams and waters fair
Enchant the scene,
Thy beauties are beyond compare,
Thou land of green.

Thy hills and dale that greet the breeze,
Thy wimpling brooks and flowery leas,
Thy homesteads nestled 'mong the trees,
Alluring, fair,
And all the hallowed memories
That cluster there;

By foaming stream or forest glade,
Where Allen drew his trusty blade,
Or Stark thy sons to battle led
When came the foe,
And tyrant hosts lay there laid
Forever low.

No slave thy green hills ever trod,
But fresh as from the thought of God,
Thy sons triumphant o'er thee strode
Unfettered, free;
The air they breathed on thy green sod
Was liberty.

Undaunted spirits past and gone
Sleep in thy graves, unmarked, unknown,
Though sculptor's art may raise no stone
Above their bed,
Thy names will live, thy worth be known,
Thy story read.

Dear land, whose rugged mountains rise
'Neath winter storms and summer skies,
Where love of freedom never dies
Within the breast,
For thee my prayer will ever rise
Till laid at rest.

METEOR OFF LONG ISLAND.

Falls Into Sea Not Far From Amagansett.

New York, Aug. 20.—All out of doors at Amagansett, L. I., were startled Sunday evening when they heard a terrific roar and at the same time saw a blazing mass of flame shooting through the heavens over the ocean, apparently only a little way out from shore. The hissing roar which was emitted from the rapidly moving molten ball, it is said, was deafening. The blazing object appeared to be about seventy feet in circumference. When it struck the ocean it caused an upheaval of the waters like a tidal wave. Huge breakers came tumbling on shore and did considerable damage. Several bathing pavilions were washed away and fishermen's nets were battered from their moorings. Great numbers of dead fish were swept up on the unusual tide and the boys along the beach did a thriving business gathering them up for sale to the summer hotels.

THIRD FEVER VICTIM.

Another Soldier Dies of Yellow Jack in Cuba.

Washington, Aug. 20.—The third death from yellow fever among the American soldiers in Cuba was reported to the War Department by cable yesterday from Col. Taylor, chief surgeon with the army of pacification. The latest victim is Private Robert Wallace, 15th Cavalry. According to Col. Taylor's report, one new case has developed at Cienfuegos, and ten patients are under treatment. The epidemic of yellow fever all are doing well, five being virtually recovered.

Col. Taylor also reported yesterday the death from pneumonia, following typhoid fever, of Private John Allison, 15th Cavalry at Cienfuegos.

SERVED 27 YEARS.

Gov. Hughes Commutes 70-Year Sentence of Hahn.

Albany, Aug. 20.—Gov. Hughes has commuted the sentence of Benjamin Hahn of Syracuse, who was convicted in Onondaga county in November, 1880, for burglary and assault, and sentenced to imprisonment for seventy years. He has now served nearly twenty-seven years actual time, which is the legal equivalent of about forty-five years, during the whole of which his conduct has been good. He is now 53 years old. If released now he may be able to earn his living.

MORE HOPE OF ARBITRATION.

American Proposal For Judges Is Favored.

The Hague, Aug. 20.—The American project for the appointment of judges for the permanent court of arbitration is gaining in favor, as besides the eight great powers having each one representative for the entire period of twelve years, all other countries will be fairly represented in it. The project says: "We must insist that no distinction be made between the States of Europe and those of the American continent regarding approximately the same qualifications regarding population, industries and commerce."

Deny Croker Is Coming.

London, Aug. 20.—Richard Croker's son said yesterday that his father has no present intention of going to New York in October.

Why Do Country Boys Flock to Big Cities?

he is lonelier there than at home—nearly always so; and even more frequently he finds that riches do not grow on ten story walls.

BUT STILL HE GOES TO THE CITY.

In going there the boy simply follows his daddy's dollars. For years his daddy and his mother and his big sister and his Aunt Mary Ann have been mailing their money to the big city for Mail Order bargains.

Result: Home merchants don't thrive, grass grows in the streets, no jobs are to be had, no opening for a new business, and the young man goes to the city because it is a place where people have traded at home and built up their own community and provided opportunities for outsiders as well as for themselves.

IF YOU WANT TO KEEP YOUR BOY AT HOME BUILD UP YOUR TOWN SO THAT HE CAN BUILD UP HIS CAREER AMONG HIS HOME FOLKS.

WHEAT PROSPECTS IMPROVE.

Better Outlook for Spring Crop—Exporters Heavy Buyers of New Wheat.

New York, Aug. 20.—The Journal of Commerce and Commercial Bulletin says: The past week has shown a general improvement in the crop situation for spring wheat. No unfavorable reports of importance have been received and some complaints of slow growth and also of drought have held this staple stronger than wheat. Exporters came in very freely for the new crop of wheat, for soft and hard winter here, at the Gulf ports and at Chicago, taking all that was offered at the market until it raised the last half of the week and somewhat checked the demand. Very little, however, has been done in old spring wheats, as offerings have been extremely light and held relatively higher than our winter. The weather conditions in the northwest have been very favorable for the new crop.

RAILROAD COMPANY SOLD.

B. H. Porter Seeks to Recover Damages of \$3,000.

Burlington, Aug. 20.—The suit of Bernard H. Porter vs. the Rutland Railroad company, an action to recover \$3,000, was entered yesterday in Chittenden county court. The plaintiff claims that the railroad company in extending its line through Porter's Point, agreed to provide proper gates and to fence a right of way to the farm, and also to fence certain burrow pits, but has failed to live up to the agreement.

THREE TOURISTS.

PELL 2,000 FEET.

Fate of Germans Missing on the Jungfrau Has Been Determined.

Berne, Switzerland, Aug. 20.—The fate of three German tourists, who had been missing on the Jungfrau since last Thursday, was cleared up yesterday when guides discovered their dead bodies on a glacier below Rothli-Sattal. They had fallen together a distance of 2,000 feet.

\$50,000 Fire at Bridgeport Resort.

Bridgeport, Aug. 20.—Six structures were destroyed with a total loss of about \$50,000, and about 20,000 persons were thrown into a panic Sunday afternoon at Steeplechase Island when fire raged through a part of George C. Tilton's amusement resort. The structures included the steeplechase, a large frame structure, the earthquake house, the base ball grand stand and bleachers, the cottage and cafe and carbonating plant of Robert Weber.

NORTHFIELD.

The stone cutting situation in Northfield is looking brighter for the men since it is learned that the E. B. Ellis Granite company has secured a contract, which will keep their men at work for at least five months. The new contract is for the granite for the First National bank of Albany, N. Y. Irving Ellis, junior member of the firm, stated that the contract for a \$200,000 job on the bank building in Albany had been signed and that the work will be commenced at once cutting the stock. M. T. Reynolds was the architect, while the general contractors were Ryder & Co.
